1-on-1 High Performance Training

PRIVATE · 1-ON-1 · BUILT AROUND YOU

Lower Scores Start With Understanding Your Game.

Before Darcy changes anything, he listens. He watches. He asks the right questions — because the fastest path to lower scores isn't always the most obvious one. Every player is different, and the best coaching starts with truly understanding who you are on the course: how you think, where you lose strokes, and what your game actually needs.

Every session is built around one thing — fewer numbers on your scorecard. Whether it's tightening your ball-striking, building a short game you can trust, or developing the mental clarity to perform under pressure, Darcy gives you a clear plan and the tools to execute it.

“The goal isn't just a better swing. It's a better score — every single round.”

The Short Game System

The short game is where scores are made — and where most players leave the most strokes on the course. Darcy's Short Game System gives you a proven, repeatable framework to eliminate the guesswork and build real confidence from 100 yards and in.

SPECIALTY SHORT GAME SESSIONS

“Know Your Shot Before You Hit It.”

Most golfers approach the short game by feel alone — and wonder why results are inconsistent. The Short Game System replaces guesswork with a personal shot code for every lie, distance, and situation you will face on the course. Once you have your codes, you never have to guess again.
